SUMMARY

Information Technology undergraduate with interests in Software Engineering, AI, and Machine Learning. Experienced in developing web applications, intelligent systems, and software projects using modern technologies. Built and deployed web applications and worked on projects involving machine learning, computer vision, and full-stack development. Seeking a Software Engineering internship to apply my skills and contribute to impactful software solutions.

AWARDS & ACHIEVEMENTS

Champion

- AI Challenge Sri Lanka 2026 – IEEE (KDU) 2026
- InnovateX – Zebra Technologies 2025
- BitCode v6.0 – Department of Information Systems, Rajarata University of Sri Lanka 2026
- OctWave 2.0 (ML) – IEEE Student Branch Chapter, University of Moratuwa 2025

1st Runner-Up

- HackElite 2.0 – IEEE WIE Student Branch, University of Moratuwa 2025

2nd Runner-Up

- AlgoArena – University of Sri Jayewardenepura 2026

Finalist

BioFusion, Genzipher

PROJECTS

Piyoway – Tourism & Travel Platform 2026

- *Next.js, Flutter, Python, REST APIs*
- Collaborated with a startup team to build and deliver a full-stack tourism platform for a commercial client, supporting travel planning, destination discovery, and location-based services.
- **Live:** www.piyoway.com

PlanGmora – Agile Project Management Platform 2026

- *React, TypeScript, NestJS, PostgreSQL*
- Developed a full-stack project management platform inspired by Jira, supporting project tracking, Kanban boards, issue workflows, spaces management, notifications, and team collaboration.
- **Source:** [GitHub Repository](#)

Gesture-Based Real-Time Air Drawing System 2026

- *Python, MediaPipe, OpenCV, NumPy*
- Developed a real-time webcam-based air drawing system using MediaPipe hand landmark detection and OpenCV, enabling 30+ FPS gesture-driven interaction with lock/unlock control, drawing, erasing, and color switching features.
- **Source:** [GitHub Repository](#)

Garbo – Waste Management System 2026

- *Spring Boot, Java, PostgreSQL, Flutter*
- Collaborated with a university team to develop a waste management platform supporting garbage collection scheduling, resource tracking, and operational management.
- **Source:** [Backend Repository](#), [Web Dashboard Repository](#), [Mobile App Repository](#)

Smart Offline-First Personal Finance Manager 2026

- *Flutter, Dart, SQLite, GitHub Actions*
- Developed a cross-platform personal finance management application with offline-first functionality, biometric authentication, and secure local data storage.
- **Source:** [GitHub Repository](#)

Traffic Violation Detection System Ongoing

- *YOLOv11, ByteTrack, PaddleOCR, FastAPI, React*

- Built an end-to-end AI system for automated traffic violation detection from video, supporting multiple violation types using object detection, tracking, and OCR-based license plate recognition.
- **Source:** [GitHub Repository](#)

CERTIFICATIONS

Supervised Machine Learning: Regression and Classification – DeepLearning.AI (2026)	View Certificate
Intro to Deep Learning – Kaggle	View Certificate
Pandas – Kaggle	View Certificate
AI Fluency for Educators – Anthropic	View Certificate

TECHNICAL SKILLS

Languages: Python, Java, C++, JavaScript, PHP, SQL
Web: HTML, CSS, React.js, Next.js, Node.js, Express.js, NestJS, MongoDB
Mobile: Flutter, React Native
Databases: PostgreSQL, MySQL, SQLite, Firebase, Supabase
ML / Data: PyTorch, Scikit-learn, OpenCV, MediaPipe, Pandas, NumPy, CUDA
Tools: Git, GitHub, Conda, Selenium, GitHub Actions, Linux (Ubuntu), Windows
Design: Figma, Canva
Other: Microsoft Excel, Word, PowerPoint
Soft Skills: Project Management, Public Speaking

EXPERIENCE

Co-Founder — Gmora (University Student Software Startup)	Feb 2026 – Present
• Co-founded a software startup focused on designing and building full-stack applications and digital solutions. • Contributed to software architecture, product development, and technical decision-making across multiple projects. • Worked with team members on hackathons and client-oriented software development projects.	
STEM Intern — Gavesha Labs	2025 – 2026
• Contributed to STEM education initiatives through the creation of learning resources and technical content for students. • Gained experience in communication, teamwork, and applying STEM concepts in educational environments.	

EDUCATION

University of Moratuwa	B.Sc. (Hons) in Information Technology (CGPA: 3.438 / 4.00)	2023 – Present
Richmond College, Galle	G.C.E. A/L Physical Science (Combined Maths: A, Physics: A, Chemistry: B)	2022

VOLUNTEERING

Mathematics Olympiad Training – Southern Province	2024, 2025
• Served as a tutor for the mathematics olympiad training pool, teaching and mentoring students in the Southern Province.	
Sasnaka Sansada	2023 – 2024
• Participated in the Ganitha Saviya educational initiative. • Contributed to mathematics seminars conducted for students across more than 40 schools in Sri Lanka.
